

THE DISCOVERY COMPANY™

NEPTUNE KRILL OIL

- A 100% pure NKO™ supplement to support joint & cognitive functions and cardiovascular health*
- **NKO™ Krill Oil** is derived from Antarctic Krill, which naturally contain a unique blend of omega-3 and omega-6 fatty acids, phospholipids and choline, as well the antioxidants: Vitamins A and E and astaxanthin.

NKO™ Krill Oil is a supplement that supports:

- healthy cardiovascular function*
- joint and skin health*
- mental alertness*
- menstrual comfort*

Superiority of NKO™:

- **NKO™ Krill Oil** is Independently Tested for superior antioxidant activity, stability, and safety.
- The fats in **Neptune Krill Oil** are in the form of phospholipids, which means they are highly bioavailable, absorbable and immediately available to help protect cell membranes.*

Antioxidant Support:

- NKO™ has potent antioxidant activity. It has a ORAC value of 378 (fish oil has an ORAC value of 8).
- These antioxidants support health, but also stabilize the fat to keep it from getting a fishy taste.*

Cardiovascular Health:

- Omega 3 fatty acids support cardiovascular function.*
- EPA and DHA help maintain cholesterol levels within normal ranges.*

Cognitive Support:

- Phospholipids are fundamental in maintaining and supporting optimal brain function.*
- The ratio of fats in NKO™ phospholipids are similar to that found in the human brain.
- NKO™ supplies significant amounts of highly bioavailable Omega-3 fatty acids, which support brain health and function.*
- EPA and DHA support emotional symptoms related to physiological conditions and stress.*

Joint Function Support:

- NKO™ krill oil may be beneficial to joint health.*
- NKO™ supports healthy prostaglandin production.*
- NKO™ krill oil has been clinically shown to maintain healthy levels of C-Reactive Protein (CRP), a protein associated with joint health.*
- EPA and DHA support joint comfort.*

PMS Support:

- Phospholipids, DHA and EPA work together to reduce the discomfort associated with PMS.* Phospholipids also exert a balancing effect on certain important brain neurotransmitters that affect the emotional and psychological aspects of PMS.*
- Research studies indicate that women consuming NKO™ experienced less abdominal swelling and discomfort during the menstruation cycle.* It has been shown to help alleviate cramps, water-retention and mild mood changes associated with PMS.*
